SKILLS

PROGRAMMING

- Java
- C++

DATABASE

300+ Questions of MySql
SQL://@Saurabh1313

DEVELOPMENT

- Javascript
- React
- Html
- CSS
- GitHub
- JQuery
- Automation and Webscraping

COURSEWORK

Data Structures & Algorithms
Object Oriented Programming
Database Management System

ACHIEVEMENTS

4th Rank on GFG
5 star @Hackerrank

INTERESTS

Reading Stack Overflow

Coding 🧑💻

Travelling ✈️

EXPERIENCE

CODING NINJAS Teaching Assistant in Data Structure with Java

Language [Click to view the dashboard](#)

Jan 2022 - April 2022

- Doubts need to be resolved by interacting with Students
- Sufficient explanation of Code logic with a dry run is required
- 450+ Students doubts resolved
- 850+ Doubts are resolved with 4.86 / 5.00 rating

PEPCODING | TRAINING PROGRAMME

Aug 2021 - July 2022

- Foundation : Solved problems ranging from easy to intermediate level.
- Level-up : Involved practice of questions based on Sorting, Searching, Greedy Algorithms, Backtracking, Dynamic Programming along with comprehensive revision of Data Structures likes Stacks, Queues, Linked-Lists, Trees, Graphs
- Web Development - Made Web Apps using HTML, CSS, JavaScript, React and automation projects using Puppeteer and selenium tools

PROJECTS

EXCEL CLONE | HTML, CSS, JAVASCRIPT

- Used JQuery, Html and CSS for UI and adding functionalities to our app.
- Features:
 1. Multi-sheet functionality
 2. Text formatting and alignments
 3. New, open and save feature
- Learnings:
 1. Graph cycle detection algorithm
 2. Logic to manage data for multiple sheets and individual cells
 3. Using stack to evaluate formula

MOVIES APP | REACTJS, HTML, CSS, JSX

- Features:
 1. Search bar to search a movie from the list
 2. Filter bar to filter movies on basis of genre, ratings or name
 3. Pagination to divide list of movies into discrete pages
 4. API calling for fetching the list of movies
- Learnings :
Class components, life-cycle, routes, services, API calling
